VKIRIROM INVENTORY MANAGEMENT  
SYSTEM

### ABOUT ME

I'm a junior second year at Kirirom Institute Of Technology University. And my major is Software Engineering. I have to learn Vue.js, Express, MongoDB, Python, HTML, CSS, and Javascript. But I still continue to new programming languages such as React.js, PHP....etc. I'm a person that likes to meeting new people and learning about their lives and their backgrounds. And I am ambitious and driven. I thrive on challenges and constantly set goals for myself, so I have something to strive toward.

### WORK EXPERIENCE

#### INCUBATION CENTER OPERATION SUPPORT 3

A2A Digitals | Kampong Speu, Cambodia

08/2021 - Present

Entry Level

I never have a real project to do. But I created to project by myself to do, and I also took the project from YouTube or Web Site for practice. And the project that I created myself, it also finishes too. One more thing is, I also use to build Templat projects about Healtcare in the Chain Company too. I don't have much experience but I believe myself, everything that I do, I will make it a success. Although it has a problem, I also never stop doing it in the midway. But I still try to find solution to solve it and make it process.
